

lighting the pathway: STUDENT SUMMIT ON IMMIGRATION REFORM

Campus Action Planning

Talk is cheap. It's time for action.

You have 45 minutes to come up with an action PLAN for the Spring Semester on your campus.

1) What actions are you going to take on your campus?

What counts as an action? Events, classroom presentations, film screenings, guest speakers, call in days, tabling, lobby visits, prayer vigils, fasting, special masses, direct action . . . just about anything. Feel free to be creative.

2) When are you going to do each action?

What events are happening on your campus that could be a venue for bringing attention to the immigration issue in the coming months? Are the lectures on campus or other programs that you can use to link students to your work on comprehensive immigration reform?

Look at a calendar. Take note of Spring Break and when Congress is in Recess.

March Recess - 17th through the 24th

April Recess - 11th through the 25th

3) How are you going to accomplish action? (who is going to do what?)

Many hands make light a heavy burden. Don't try to do everything yourself. Divide up who is doing what. Think of other groups and allies you can enlist to help you have a bigger impact. Don't forget about faculty, administrators and off campus groups.
